

November 15, 2006

Ingersoll Rand Utility Equipment is now introducing 5 styles of industry leading gloves – each offering protection, comfort, and performance.

These gloves are crafted with multi-purpose work needs in mind...for the equipment operator, construction worker, and even the weekend warrior at home.

- **Contractors Gloves** - Provides the basics for utmost protection against day-to-day jobs. The Clarino® synthetic palm provides great handling and dexterity, and the Spandex top gives the best fit around.

Medium #22824643 – Large #22824650 – Extra Large #22824668

- **ThunderGun® Gloves** - Use construction tools all day? These gloves utilize a silicon gel palm padding yielding reduced vibration and minimized fatigue. Add in an Airprene knuckle panel for greater protection, breathability, and comfort.

Medium #22824676 – Large #22824684 – Extra Large #22824692

- **Work Force Gloves** – Premium silicon gel padding throughout the palm area provides relief from extreme vibrations. The added features of textured palm and fingers provide a better grip in both dry and wet conditions.

Medium #22828214 – Large #22828222 – Extra Large #22828230

November 15, 2006

- **Titanium Gloves** - The ultimate glove for protection and reduced hand fatigue. A gel pad in the palms minimizes air tool vibrations while the neoprene padding on the top, knuckles, and fingers allow for impact protection with comfort. The silicone finger and thumb grips add control for greater performance.

Medium #22824700 – Large #22824718 – Extra Large #22824726

- **Pro Leather Gloves** – Great all around construction glove made of premium-grade leather. Glove is padded for comfort and protection and features a water resistant finish.

Medium #22828248 – Large #22828255 – Extra Large #22828263
