

Airend Warranty Program

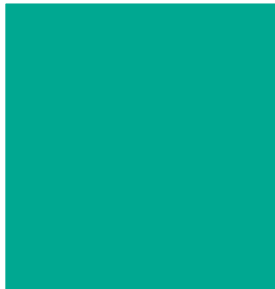

5-Year or 10,000 Hour Limited Warranty*

Use **genuine** Doosan Compressor Fluids and Filters during your routine compressor maintenance and more than **double** the standard 2-year/4,000-hour airend warranty.

Only genuine Doosan air compressor fluids and filters are specifically designed to ensure peak operating performance and long life to maximize productivity and protect your investment in Doosan portable air compressors.

Only authorized Doosan Portable Power distributors provide the parts and service expertise to keep your equipment running at optimum efficiency.

*This limited warranty is automatically available when the initial user registers their machine prior to expiration of the standard warranty and can demonstrate the following conditions are met during the warranty period:

- The original airend has been returned assembled and unopened.
- All maintenance is completed at prescribed intervals using only genuine Doosan parts, fluids and filters.

This warranty applies to airends located in the US and Canada, and is limited to defects in rotors, housings, bearings, and gears. NHP models are excluded from this optional warranty.
