Committed to your productivity

Doosan Portable Power makes your productivity a priority. With pressure ratings from 100 to 150 psig, these air compressors are built with the power you need, whatever the application.

Performance features

- Automatic shutdown protection with indicator lights for high discharge air temperature, low engine oil pressure, high engine coolant temperature and low fuel level
- Electric brakes with towing lights, side markers and reflectors
- External, single-point lifting bail for easy hoisting
- Full-length, lockable side doors with pneumatic lift springs provide easy opening and excellent access for serviceability
- Heavy-duty, A-frame drawbar with adjustable pintle eye and safety chains provide easy vehicle attachment and stability while towing
- Optional onboard aftercoolers and coalescing filters

The IQ System® option for the 375 cfm model includes an internal aftercooler that provides an approach temperature of 20˚F, as well as a water separator and dual particulate coalescing filters for cleaner, Instrument Quality air. This system eliminates condensate waste.

Available options (factory installed)

- Tachometer
- Front panel air filter maintenance indicator warning light
- Keyed ignition
- Dual pressure regulation
- 100’ single or 100’ double hose reels, with or without hose or OSHA valves
- Eight-position, adjustable pintle eye or ball hitch attachment, 19” to 33” in 2” increments
- Pneumatic third wheel attached to drawbar in addition to standard screw jack with padfoot
- Parking brake
- Less running gear with central drains
- Entire enclosure constructed of galvanneal sheet metal for improved corrosion protection
- Three ¾” NPT discharge valves

Air compressors from Doosan Infracore Portable Power are not designed, intended or approved for breathing air. Compressed air should not be used for breathing air applications under any circumstances.
